

Ride

Balanced and playful

Ride is a minimalist bar stool playfully inspired by unicycles. It works perfectly in lobbies, office space and paired with standing tables for spontaneous meetings. Ride adds a finishing touch in interior design projects.

"We wanted to create a characteristic bar stool with clean, simple lines, a shape focusing on essentials – seat, pillar and footrest, connected in one single, smooth line. Our aim was to design a bar stool that could both stand out and be integrated"

GRIDY design studio

Wilhelm Grieg Teisner and Lars Olav Dybdal launched their Gridy design studio in 2009. The duo studied at the Bergen Academy of Art and Design and are now based in Oslo. Gridy is known for simple, functional design, with style, personality and humour.
